Portfolio QR

Freelance AI and digital marketing consultant building practical automation systems, team training, and content workflows that improve lead follow-up. After Johnson and Johnson, I moved into freelance work to focus on AI-enabled marketing and business systems. I am not looking to just work a sales table - I can help a water solutions team capture better leads, prioritize homeowners, and clean up daily operations.

WATER SOLUTIONS FIT

- Build QR-based lead capture for events, door teams, referrals, and website traffic.	- Use AI scoring to rank homeowners by urgency, water type, ownership status, and issue severity.
- Create follow-up scripts for stains, odor, hard water, bottled-water use, and well-water concerns.	- Give managers dashboards, CSV exports, issue trends, and cleaner appointment handoffs.

EXPERIENCE

Freelance Digital Marketing & AI Integration Consultant

- The Grande Restaurant & Studio Jax Fitness - Jacksonville, FL | 2025-Present
- Managed social media strategy and AI-assisted content workflows for two local businesses.
 - The Grande: built an AI-optimized content calendar that helped gain 400 new followers in 1 month.
 - Studio Jax Fitness: created client engagement strategy covering scheduling, promotions, and retention content.

AI Content Producer | Quality Control Specialist

- Johnson & Johnson (Acuvue) - Jacksonville, FL | May 2024-March 2026
- Produced AI-powered training and instructional video content distributed to manufacturing teams.
 - 879 Johnson and Johnson employees engaged with AI training content within 3 months of launch.
 - Drafted SOPs, scripts, and compliance communications using AI writing tools.

AI Literacy Instructor | Community Educator

- Jacksonville Beaches Library - Jacksonville, FL | 2025-Present
- Designed and facilitated a 1-hour practical AI workshop for 14 non-technical attendees.

AI Product Developer | Digital Content Strategist

- Linda Fitness App, Air Force BMT Prep App, Water Solutions Event AI | 2025-Present
- Designed a water event lead system with homeowner quiz, lead scoring, recommendations, dashboard, and CSV export.
